**VANCOUVER, BC**, June 3, 2021 – International Consolidated Uranium Inc. (“**CUR**” or the “**Company**”) (TSXV: CUR) is pleased to announce that it has closed its previously announced “bought deal” private placement (the “**Offering**”) with Haywood Securities Inc. and Red Cloud Securities Inc. (the “**Underwriters**”) as co-lead underwriters. The Offering consisted of an aggregate of 5,000,400 units of the Company (the “**Units**”), including the full exercise of the Underwriters’ option, at a price of C\$1.80 per Unit (the “**Issue Price**”) for aggregate gross proceeds of C\$9,000,720.

Philip Williams, President and CEO commented “We are pleased to close another over-subscribed financing, backed by strong institutional support, including existing and new investors. The company is now well funded to close on its announced acquisitions as well as pursue new opportunities, with over C\$23 million in cash and cash equivalents. Our potential deal pipeline remains full, with anticipated new and complimentary acquisition targets. We believe that our track record of six announced acquisitions in the past 12 months should give investors confidence in our ability to continue to execute on this plan. At the same time, we are encouraged by the market’s growing interest in the uranium sector and its positive reaction to our business plan.”

Each Unit consists of one common share (a “**Common Share**”) in the capital of the Company and one-half of one Common Share purchase warrant (each whole Common Share purchase warrant, a “**Warrant**”) of the Company. Each Warrant is exercisable to acquire one Common Share (a “**Warrant Share**”) at a price per Warrant Share of C\$2.60 until June 3, 2023.

The net proceeds from the Offering are expected to be used for exploration and development of the Company’s uranium properties, for potential acquisitions, and for working capital and general corporate purposes.

In connection with the Offering, the Underwriters received a cash commission equal to 6.0% of the gross proceeds of the Offering and such number of non-transferable compensation options (the “**Compensation Options**”) equal to 6.0% of the aggregate number of Units sold under the Offering. Each Compensation Option is exercisable to acquire one Common Share at the Issue Price until June 3, 2023. All securities issued under the Offering are subject to a statutory hold period under Canadian securities legislation expiring on October 4, 2021.

The securities offered have not been registered under the U.S. Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements.
